

MIN WOO PARK KIM

FRONTEND DEVELOPER | REACT DEVELOPER

+34 603 184 431 | minwoowork91@gmail.com | min-woo-pk.vercel.app | Madrid, Spain

PROFESSIONAL PROFILE

Frontend Developer specialising in **React**, with hands-on **TypeScript** experience and over 3 years of experience building enterprise applications and **ERP** systems. Contributed to the migration of **.NET** solutions to modern interfaces, business module development and REST API **integration**. Experienced in diagnosing issues, improving code maintainability and collaborating with backend teams to deliver stable, user-friendly workflows.

TECHNICAL SKILLS

Frontend	React , TypeScript , JavaScript ES6+, Next.js , Tailwind CSS , Bootstrap, HTML5, CSS3, Vite
State and data	TanStack Query , Zustand , Redux , Axios, REST APIs
Quality	Vitest , Jest , React Testing Library , Cypress
Environment	.NET , ASP.NET Web API , C# , SQL , Node.js, Git, GitHub, Azure

PROFESSIONAL EXPERIENCE

Full Stack Developer React and .NET 08/2023 - Present

CTF Code to Fit | Spain · Remote

- Led frontend development for the migration of an **ERP** system from **.NET** to **React**, modernising key workflows while maintaining operational continuity.
- Developed and maintained contract, renewal, creditworthiness and user management modules, translating business requirements into **reusable components** and workflows.
- Diagnosed and resolved **integration** issues between **React** and **ASP.NET Web API**, working with backend developers to correct data, request and interface state errors.
- Improved maintainability and perceived **performance** through **reusable components**, data fetching and caching with **TanStack Query**, and clear global state separation with **Zustand**.
- Built **responsive interfaces** with **React**, **Next.js** and **Tailwind CSS** for different user roles, simplifying day-to-day operational tasks.
- Strengthened delivery quality with **unit**, **integration** and **end-to-end** tests using **Jest**, **Vitest**, **React Testing Library** and **Cypress**.
- Supported **SQL** query analysis and the investigation of data-related issues in enterprise applications.

React Developer 02/2023 - 07/2023

ETPAY | Spain

- Developed responsive web interfaces with **React** and Bootstrap, including user registration flows and landing pages.
- Structured shared state with **Redux** to keep application data and behaviour predictable as features expanded.
- Created dynamic email templates and user-triggered automations connected to application workflows.
- Helped resolve functional and data issues by reviewing frontend behaviour and its interaction with **SQL** and existing services.

EDUCATION

Frontend Web Development | Gamma Tech School 2023

Bachelor's Degree in Biology | University of Salamanca 2014
