

Min Woo Park Kim

SUMMARY

React Developer with 3+ years of experience building reusable UI components, responsive interfaces and scalable frontend architecture. Experienced integrating **REST APIs** and working in **.NET** - environments with **relational databases**, collaborating with backend teams to debug and resolve integration issues.

EXPERIENCE

React Developer, 08/2023 - Current **CTF** - Spain

- Led frontend development of an **ERP** migration from **.NET** to **React**
- Developed and maintained core business modules including **contracts, renewals, creditworthiness and user management**
- Developed **client** and **company-facing** interfaces, improving usability across different user roles
- Integrated frontend applications with **ASP.NET** Web API (**REST** services)
- Built web applications using **React** and **Tailwind CSS**
- Developed high-performance pages using **Next.js**
- Used **TanStack Query** for server-state management, data fetching, caching and query synchronization
- Used **Zustand** for global client-state management
- Worked with **SQL** relational databases
- Implemented unit testing using **Jest / Vitest** and **Cypress**

React Developer, 02/2023 - 07/2023 **ETPAY** - Spain

- Developed responsive web applications using **React** and **Bootstrap**
- Built and maintained user registration flows and landing pages
- Implemented state management using **Redux** to support scalable frontend architecture
- Developed **dynamic email templates** and user-triggered automation flows
- Worked with relational **SQL databases** in data-driven applications

EDUCATION

Frontend Web Development, 2023
Gamma Tech School

Degree in Biology, 2014
Universidad De Salamanca

SKILLS

Frontend

- React
- Next.js
- React Native
- TypeScript
- JavaScript (ES6+)
- TanStack Query (React Query)
- Zustand
- Redux
- Tailwind CSS
- Bootstrap
- HTML5
- CSS3

Testing

- Vitest
- Testing Library
- Cypress
- Jest

Integration

- REST APIs (Axios)

Backend

- C#
- .NET / ASP.NET Web API
- SQL
